|--|--|

And also:

Techniques

Cutting, pasting, painting

Steps

Painting Version (Ages 3+)

Paint the entire outer surface of the roll in the desired colour.

Decoupage Version (Ages 5+)

Tear multiple pieces of Decopatch paper, approximately 1 to 2 cm in size, in the desired colour. Apply PVA glue to the roll, cover with pieces of decopatch paper, and finish with a layer of PVA glue.

Once the paint or PVA glue is dry, follow the next steps:

- Glue the eyes onto two medium-sized pompoms.
- On the roll, using double-sided adhesive dots, attach the "eye" pompoms and the mini pompoms that will form the nostrils.
- Cut strips of tissue paper that are 1.5 cm wide and 15 cm long.
- Glue these strips using PVA glue inside the roll, under the dragon's nostrils (on half of the roll).

By blowing strongly inside the roll, the dragon's flames will burst out! Create a multitude of colorful dragons with a variety of paint colors and Decopatch Mosaics paper!
