## Steps

### Saint Nicholas figurine

- Print out the St Nicholas templates and cut them out.
- Take a sheet of white honeycomb paper and trace the beards with the previously cut shapes. Cut out the traced shapes.
- Expand the honeycomb paper and glue two ends together. This is a nice big beard!
- Trace the other St. Nicholas shapes onto the sheets of cardstock. Match shapes and colours as follows: Head → Pink; Hat and Nose → Red; Cross → Yellow. Cut out.
- Glue the cross on the hat, the hat, the nose and the beard on the head, leaving room for the eyes.
- Add sticky eyes to make the character more lively.

### Final assembly

- Trace the support shape on red paper. Cut and pinch in half along the length of the rectangle.
- Clamp on about 2 cm the top of a bag previously filled with biscuits. Place the previously cut red rectangle there; staple to close the bag. Glue the Saint-Nicolas on the rectangle to hide the clip.

All that's left is to share the magic of Christmas with mischief and greed!
