

# Advent decorative festoons

Time needed: 1 hour | Age: 5 or over (adult supervision required)

Difficulty: ★★☆☆

## Material

- Sheets of TOGA fancy paper
- Sheets of coloured Kraft paper
- Satin cord
- Scissors
- Pattern

## Steps

1. Cut out 24 cubes from a mixture of both types of paper.
2. Glue the tabs to form the cube. If you like, you can fill the hollow cubes with sweets, presents, etc.
3. Arrange the cubes in your preferred order before assembling the festoon. Make a hole in the edge of each cube to pass a length of satin cord through. Secure it to the festoon with a double overhand knot.
4. All that remains is to hang the decoration up.
