

# SAINT MARTIN OWL LANTERN

3 years | Difficulty: ★ | 1 hour

## Material

You need:

- [Paper lanterns](#)
- [Lanterns](#)
- [Sheets of card](#)
- [Sheets of card](#)

- [Led tealight candles](#)
- [Double-sided adhesive tape](#)
- [Fairy lights](#)

And also:

## Steps

Unfold a lantern and insert the metal part inside. Create your character by cutting out the different parts:

- For the eyes: white and black circles of different sizes
- For the beak: a yellow or orange triangle
- For the wings: cut out oval shapes and add more fancy with glittery leaves, layering several sizes in different colors.
- For the legs: simple or more realistic shapes in yellow or orange

Glue the different elements together (for the eyes or the wings), then on the lantern, with 3D double-sided adhesive. Insert a light garland or an LED candle inside the lantern. Tie the upper metal part to a string and then to a stick. Celebrate Saint Martin, with your owl.
