

SANTA CLAUS IN THE CHIMNEY

+ 4 years old | Difficulty: ★ | 2 hours

Material

You need:

- **Upcycling:** Toilet Paper Rolls
- [MEDIUM TIP FELT PENS](#)
- [CANSON PACK OF COLOURED PAPER](#)

- [ADHESIVE FELT SHEETS](#)
- [SCISSORS Comfort](#)
- [STRONG GLUE](#)

And also:

Educational material

Fine motor skills

Steps

Chimney

- Take a sheet of dark red paper and wrap it around the toilet paper roll to determine the size of the rectangle. Add 2 cm at the top and bottom, then cut.
- On the red rectangle, draw horizontal black lines at 1.5 cm intervals, then make vertical lines to create bricks.
- Glue the rectangle onto the toilet paper roll and fold the excess inside for a neat finish.
- To customize the chimney, cut a white sheet of paper or self-adhesive felt into a white rectangle. Wrap it around the roll to determine the size and create incisions to create the snow effect. Glue the snow at the top of the chimney.

Santa Claus:

- Cut out feet, hands, a bag, and a hat from a light red sheet of paper.
- Color the feet with a black marker.
- Cut the tops of the shoes, the upper part of the gloves, the string of the bag, the edge, and the pom-pom of the hat from white paper (in two pieces for both directions).
- Glue all the white elements in their respective places.
- Attach the feet, bag, hands, and hat inside the toilet paper roll.

And here's a playful decoration to place on the Christmas table!
