

Surprise calendar

Time needed: 1 hour | Age: 4 or over

Difficulty: ★★☆☆

Material

- 25 toilet roll cores
- Roll of fancy paper
- Sheets of coloured Kraft paper
- Adhesive stars
- Glue
- Black felt tip
- Scissors
- Piece of card
- Modelling knife

Steps

1. Glue 24 toilet roll cores to a piece of Kraft paper end-on using liquid glue.
2. Leave to dry for 30 minutes then trim the surplus paper around each core with a modelling knife.
3. Décorer chaque rouleau avec un chiffre ou un nombre, jusqu'à 24 sur l'avant.
4. Cover each core with Kraft paper.
5. To build the house, glue 4 cores side-by-side horizontally, then repeat the operation three times. Don't forget to glue a floor between each storey.
6. Once this structure is complete, cut two strips of patterned paper and glue them to either side of the assembly to make the walls.
7. Cut a strip of card roughly 30cm wide and cover it with a sheet of the same paper. Bend it in the middle to form a roof.
8. Cut the end of the last toilet roll core on a slant and cover it with the same patterned paper. Glue it to the roof to make a chimney pot.
9. Glue the roof of the house onto the calendar assembly.
10. Add a finishing touch to your calendar with small adhesive stars.

+ All that remains is to fill your surprise calendar with goodies!
