Chick jars

- Coat the surface of the glass jar with the mixture.
- Sprinkle with glitter before the paint dries.
- Apply a second coat of paint if it is not strong enough.
- After drying, glue the mobile eyes.
- Cut out the legs and beak from foam paper and glue them to the jar.

Rabbit Pots

- Using a white Posca marker, colour the pot by applying 2 layers. On the second layer and before the Posca dries, sprinkle with pink glitter.
- After drying, add accessories on the pot: mobile eyes, pompoms, whiskers and ears cut out of foam paper.
