And also:

Steps

For the chicks

- Start by drawing triangles with the pencil on each end to mark the shell.
- Then using Posca, paint the middle in yellow to give life to the chick, make a small triangle for the little beak and the eyes with small black dots.

For the rabbits

- Start by drawing the bottom of the bunnies either plain or with patterns (circles, squares, lines...) on the bottom half of the egg.
- Cut out the ears according to the [downloadable template](#), and colour the inside with Posca.
- To give height to the bunnies, make a small hole and prick on a wooden stick.

For the decor

- Choose a wooden or cardboard tray large enough to create a springtime atmosphere with the bunnies and chicks.
- Place the wool in the tray and then arrange the chicks, rabbits and chocolates to decorate the holiday tables.

A colourful spring garden!
