- [COLOURED PAPER SHEETS](#)
- [ADHESIVE GEMSTONES Coloured](#)
- [DOUBLE SIDED 3D ADHESIVE TAPE Fine](#)

And also:

Steps

Butterfly Tree

- Draw and color the tree on the foam board with coloured pencil. Decorate the bottom of the board by drawing grass and gluing small wooden shamrocks.
- Create a multitude of colourful butterflies with the hole punch.
- Fold the butterflies in half. Place glue in the middle and place on the foam board. Repeat until you have a beautiful, colourful tree of butterflies!

Feel free to fold the wings of the butterflies again once they are well fixed.

Steps

Fields in Bloom

- Draw grass and flower stems on foam board. Embellish with wooden adhesive ladybugs.
- Create a multitude of colorful flowers with the hole punch. Glue them in the shape of a cloud and flowers. Enhance with adhesive rhinestones!
- Arrange a few butterflies that have been perforated.

To create the suspension:

- Tie nylon strands to each end of the branch.
- Pierce the butterfly heads with a pin and string them like beads. Tie a knot between each butterfly to separate them.
- Secure the hanging with double-sided tape.

And there you have it, a beautiful and colourful country picture!
