Steps

- Cut out the cells of the egg boxes.
- Paint the cells inside and out with the pastel gouache. Allow to dry (apply a second coat if necessary).
- Cut out an 11cm and a 7cm circle from cardboard, keeping the centre point the same. Decorate the bottom of the wreath by gluing feathers to the top.
- Take the dried cells and glue coloured sequins in the centre.
- Finish your wreath by gluing the cells onto the circle, alternating the different colours.

A beautiful wreath to welcome spring!
