Steps

From Geography to Art, here are some ideas to personalise children's notebooks!

Flower booklet :

- Use a black marker to draw a central stem and other small stems.
- Apply the foam stamps or make fingerprints with the mini inkers by alternating colours around the stems.
- Create small animals (butterflies, birds, etc.) with the same technique.

Fruit and vegetable notebook :

- Use the mini fruit and vegetable stamps and stamp in alternating colours throughout the notebook.
- Cut out a circle from a white sheet of paper and stick it on the notebook.
- Write the child's name on the inside with a marker.

World Notebook :

- Offset an illustration of the earth and transfer it to the centre of the notebook.
- Colouring the illustration.
- Stick the "monuments" stickers around the illustration.
