

Pencil case Croco

Duration: 20 minutes - + 6 years

Difficulty: ★★☆☆

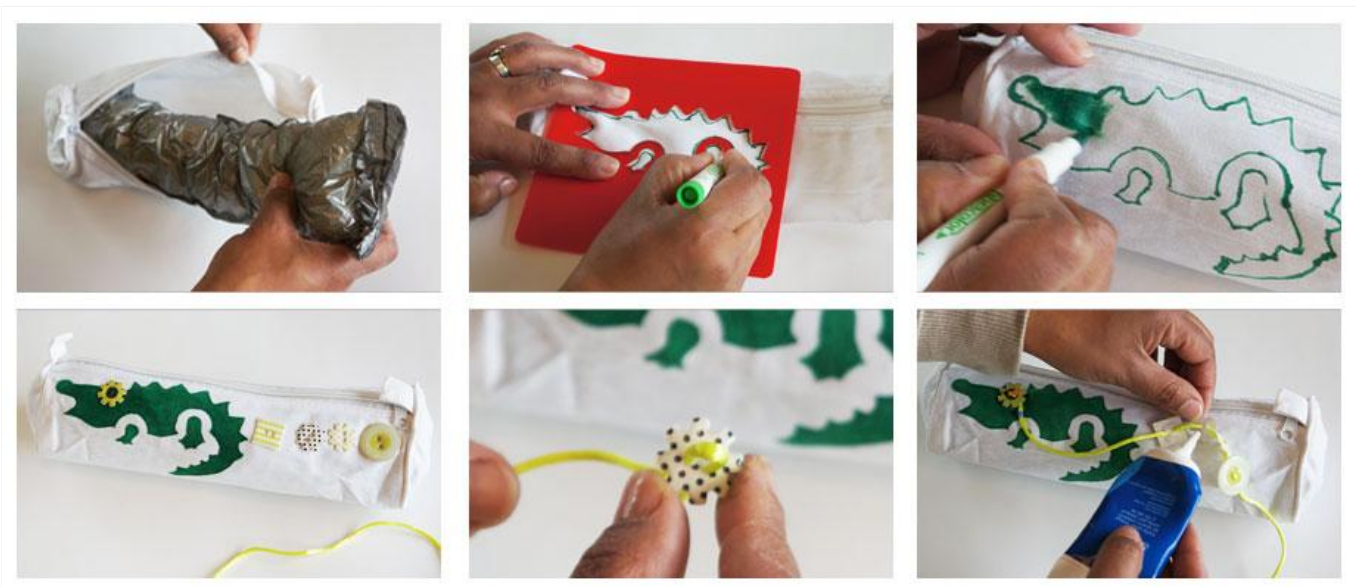

Material

- [1 white pencil case to decorate](#)
- [1 stencil Crocodile](#)
- [Felt-tips for textile](#)
- [Decorative buttons](#)
- [1 satin cord](#)
- Textile glue
- [1 eye adhesive \(optional\)](#)

Steps

- Open the pencil case and insert a plastic bag, into which – ideally- you will have put newspaper or foam. The benefit is two-fold: firstly the felt-tip does not pass through and, secondly to visualize the depiction of the motive on the full case.
- Then place the stencil on the pencil case, and trace the contours of the animal using a felt-tip pen.
- Colour inside the pattern using markers for textiles.
- Position the buttons on the pencil case, in the location you wish, so as to determine the length of thread necessary.
- Afterwards cut the thread to the desired size, thread the satin thread inside the decorative buttons.
- Place a pea sized amount of glue (textile glue, for more adhesion) on the back of each button, then stick them one by one. Keep them in place with of pins if needed.
- Let dry for approximately 20 min.
- Lastly stick the eye on the crocodile!
