Duration: 30 minutes - + 5 years

Difficulty: ★★☆☆

Steps

- Paint the pencil case, inside and outside, with black textile paint. Let dry for approximately 30 min.
- By means of a low power iron, iron all of the pencil case, so as to fix the colour.
- Cut the stencils out of the letters which you wish to print on the pencil case, and then fix them with adhesive tape.
- Paint inside the stencil with white paint and let it dry for about 15 minutes.
- Arrange and paste up the stars on the pencil case: they are already sticky, but for more adhesion, we recommend you to add a touch of glue.
