## Material

- Pencil

- Tahiti imitation gems
- Sheet of fancy paper (optional)

## Steps

1. Draw round the pattern on a sheet of smooth paper (stick to the dimensions given). If you want a stiffer pouch with a custom inside, you can glue a sheet of fancy paper to the white side of the smooth paper.
2. Cut out the transferred shape.
3. Draw the fold lines using a ruler.
4. Fold the sides over first.
5. Then fold the top and bottom.
6. Fit a paper fastener where the side and bottom flaps overlap to keep the folds in place.
