- [SHEETS OF PATTERNED PAPER Nature](#)
- [METALLIC ACRYLIC PAINT Gold](#)
- [GLITTER FOAM STICKERS Autumn](#)

And also:

+ Educational material

Finding your bearings in space

Steps

Discover the riches of nature at two different levels!

Level 1: Color hunt in nature

- Paint the bottom of the egg cartons with the gouache sticks.
- Cut a sheet of cardboard the length of the lid and glue the resulting rectangle sheet to the top of the box.
- Decorate the inside and outside of the lid however you want.

Off you go on a color hunt in nature!

Level 2: Search and find in nature

- Paint the inside and outside of the lid gold.
- Cut out 11 x 3.5 cm squares from the paper and 1 x 3.5 cm square from colored paper. You can place the discovery of their choice in the corresponding square.
- Once the paint is dry, glue the squares to the inside of the lid, making sure they line up with the slots so you can easily match the items found, to the images.
- Decorate the lid however you want!

Observe and concentrate as you fill your nature treasure box! As a group, you'll need to work together to complete the task!
